

# COMPACT

- IP67 Rated
- Front wall mounting
- Compact design
- Meets the IEC 61076-2-111 standard
- Mounting size: M16x1.5 (incl. anti-rotation protection)
- Lead free and RoHS II compliant
- Safe grounding concept (PE/FE connected to housing)

- UL approval
- Up to 16A and 600V AC
- L, K, S, T Codings

Consistently plugged!

## M12 POWER CONTROL CABINET BULKHEAD

### Compact size, maximum performance

The new M12 POWER control cabinet bulkheads from Murrelektronik set new standards for consistently supplying power in the field.

With these new models, Murrelektronik is adding power control cabinet bulkheads to its existing signal and data products.

With an overall length of less than 30 mm, a current of up to 16A and an operating voltage of 600V AC, the new control cabinet bulkheads clearly surpass

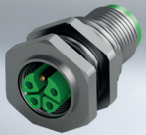

conventional 7/8" ones in both size and performance. Users benefit from easy, pluggable M12 Power connections from the control cabinet to the field.

Another plus for choosing the new M12 POWER control cabinet bulkheads: Not only are they the most compact product on the market, they are also lead-free and fully RoHS II compliant.

## ORDERING INFORMATION

Description	Poles	Power	Voltage	Art.-No.
K-coded with PE	5-pole	12A	600V AC	7000-P3911-0000000
L-coded with FE	5-pole	16A	63V DC	7000-P4911-0000000
L-coded without FE	4-pole	16A	63V DC	7000-P4915-0000000
S-coded with PE	4-pole	12A	600V AC	7000-P6911-0000000
T-coded	4-pole	12A	63V DC	7000-P7911-0000000
